Jonathan – This is the third time I have sent it to you. I spoke with Bob on just the patches for the 90 holes and he was going to send to me the estimate this weekend. I will turn it around asap. If not I guess we may have it to you early Monday am when they get in at 7:00am. Sorry for the delay. Please let me know when you get this. Have a good Sunday.

Subject: Revision 7 on Tank 16 at Lazarus/Ingleside

Hi Andy,

The revised bid with a new tank bottom including slotting the tank shell as per API-653 is attached.

Let us know asap since we are finishing up what we can do on tank 16 and we want to do the bottom work before we install the new Aluminum floating roof.

Thanks! Bob
